

NEW H2

HUNTER HYDROGEN TECHNOLOGY CLUSTER

NewH2 Update Knowledge Exchange

30 November 2022

Seeded by
NERA and UON
in 2021 as part
of H2TCA.

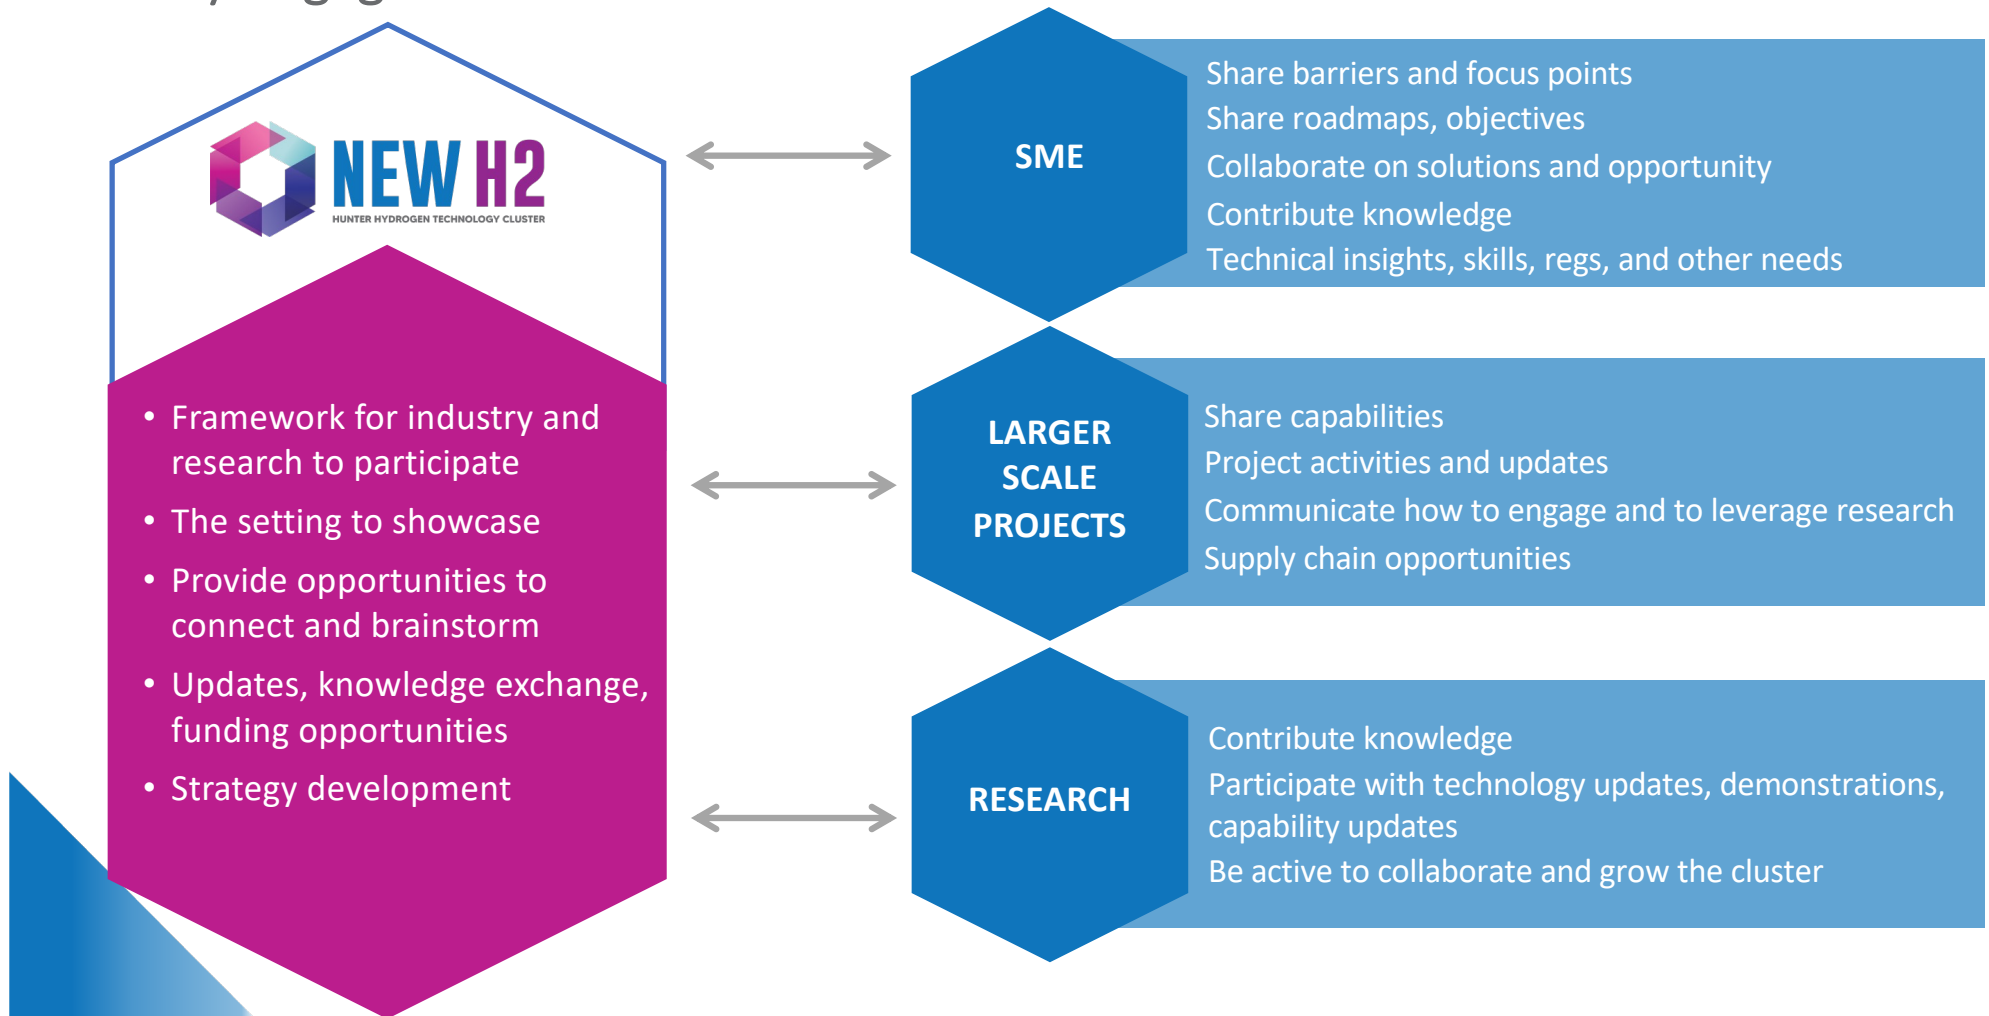

NewH2 is part of a
nationwide hydrogen
cluster network to
foster a multi-billion
dollar, globally
competitive hydrogen
technology industry for
Australia.

NewH2 has established to industry cluster initiatives that:

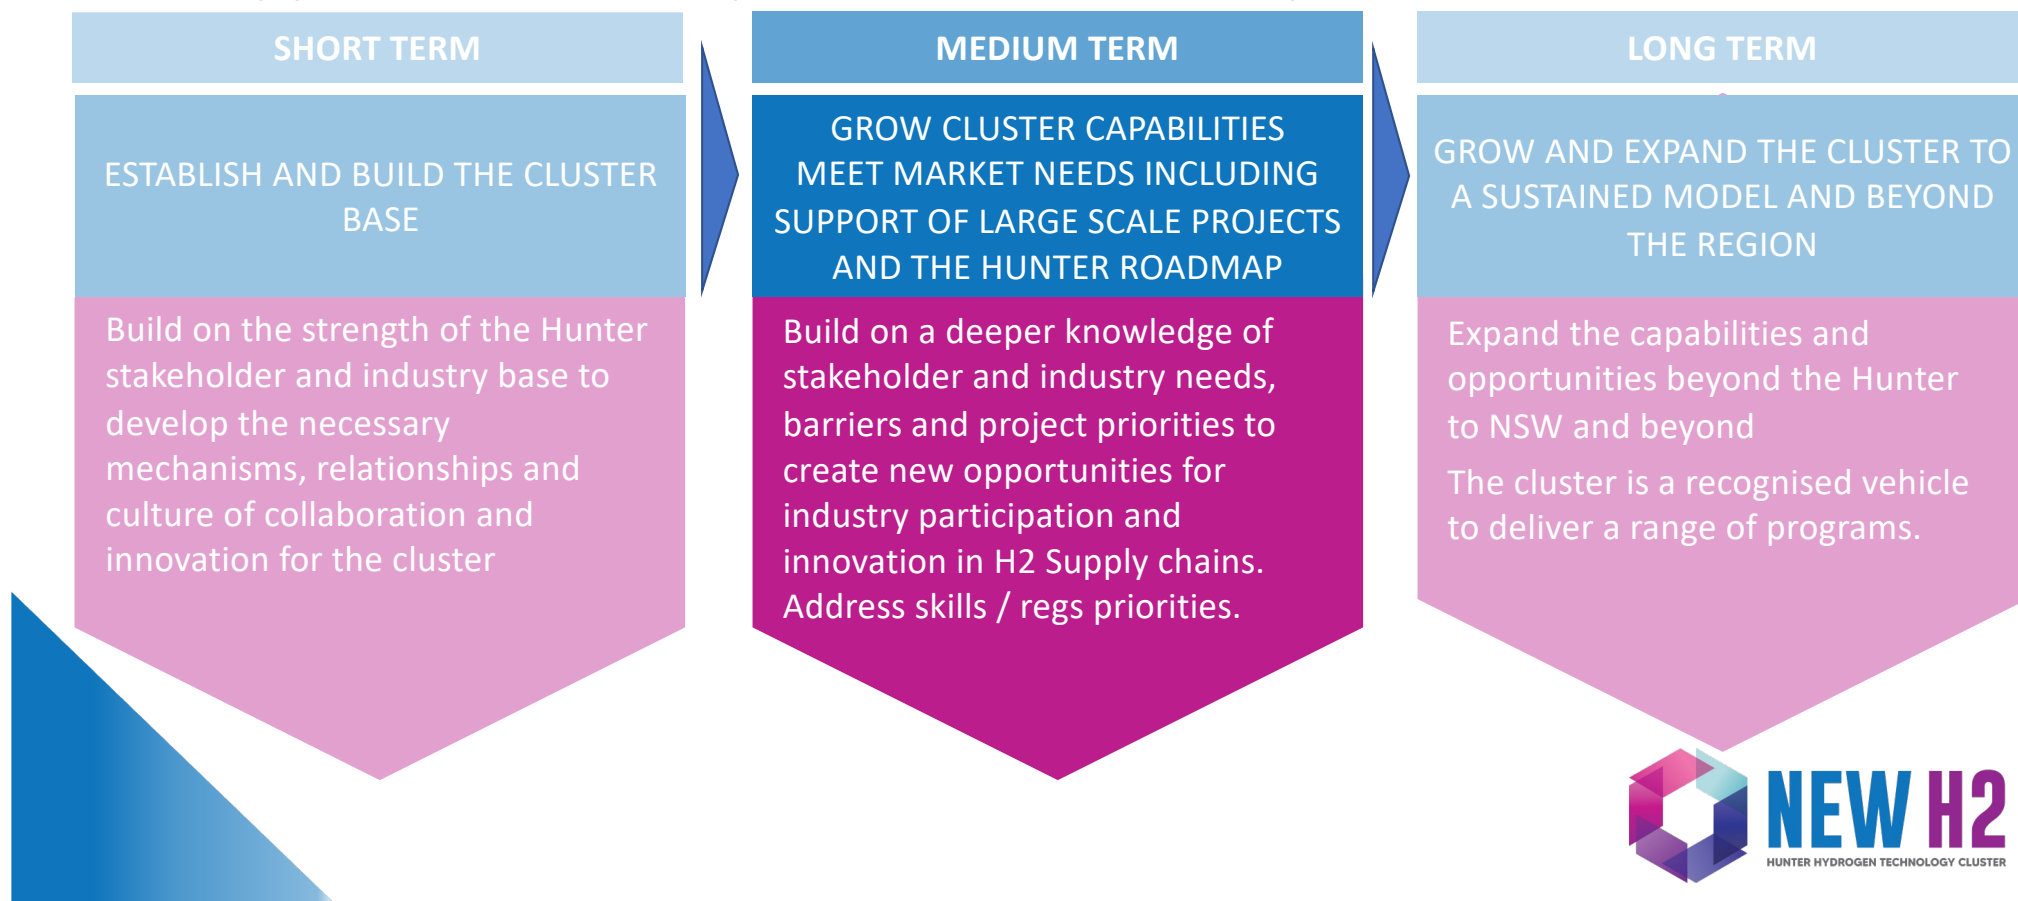

- facilitate **connections** and **knowledge sharing** and by bringing together the expertise, technologies, resources, capital and knowledge of businesses and organisations
- **support** the **development** and **coordination** of hydrogen supply chains and innovation
- **identify gaps** and **barriers**, to support the region to be equipped with the **skills required** for the development, deployment and commercialisation of new hydrogen focused technologies.

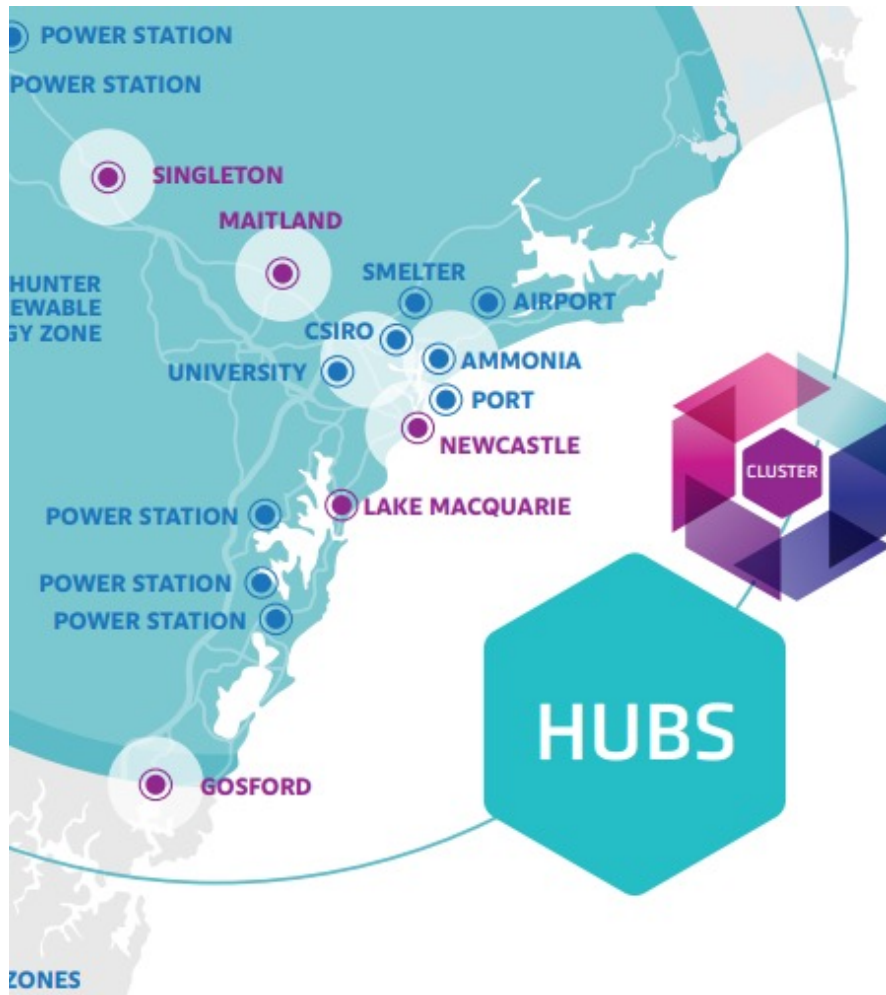

The founding principles of NewH2 is a model of open access and 2-way engagement

In 2022-25 the focus is to further mature the cluster to meet market needs including the support of large scale project and support the delivery of Hunter Roadmap elements

NewH2 has moved from the University to HunterNet supported by Patrons

HUNTER HYDROGEN & ENERGY

SYMPOSIUM

**NEWCASTLE, AUSTRALIA
20-22 FEBRUARY
2023**

SYMPOSIUM DAY ONE

TUE 21 FEB 2023

SESSION ONE:

The Opportunity for Hydrogen and Energy in the Hunter

SESSION TWO:

Speaker and Panel Discussion:
Enabling Investment in Hydrogen and Energy Sectors

SESSION THREE:

Hunter Hydrogen Projects Showcase

SESSION FOUR:

Innovation Showcase

SESSION FIVE:

Research Showcase

SYMPOSIUM DAY TWO

WED 22 FEB 2023

SESSION ONE:

Enabling the Energy Transition in the Hunter

SESSION TWO:

Hunter Energy Projects Showcase

SESSION THREE:

Skills and Workforce Development

SESSION FOUR:

Speaker and Panel Discussion:
Stakeholder and Community Engagement

SESSION FIVE:

Innovation & Research Partnerships
